

AI for Social Good Awards 2023

Nomination Form

To know more, visit <https://taim-gc.in/ai4good-awards>

To encourage an even higher adoption of AI in socially important sectors, we have constituted the **AI for Social Good Awards** to recognise and empower innovative and impactful AI applications for the social sector emerging from India's startup ecosystem.

* Required

* This form will record your name, please fill your name.

Contact Details

1. Full Name *

2. Contact Number *

3. Email Id *

4. Designation *

Details about your Startup

5. Name of Startup *

Please mention the name of the startup that is applying for the awards

6. Brief description about your startup *

Briefly mention the kind of work that you do including the sectors catered with a specific focus in terms of work done in the AI domain.

7. Year of Incorporation *

Number must be between 1990 ~ 2023

8. Number of employees in India *

9. Startup Website / URL *

Award Category

10. For which sector do you wish to nominate your startup? *

- Health & Sanitation
- Skill Development & Livelihoods
- Sustainable Environment

11. Use Case Headline *

Provide a succinct name to your use case that is descriptive of the problem and solution (4-6 words)

12. Technologies Used *

- Machine Learning
- Natural Language Processing (NLP/NLU/NLG)
- Computer Vision
- AI Ops
- AR/VR
- Graph Technology
- Cybersecurity
- Quantum Computing
- Others

13. Mention the beneficiary of your use case and specify the name *

Mention who is utilizing the use case, and also share the name of the entity.

Understanding the Problem

14. Describe the problem that you have solved *

15. Why is the problem selected by you important to be solved? *

Provide a brief to help us understand the significance of the problem and why it needs to be solved.

16. Describe your solution to the identified problem with a specific focus on how you are leveraging AI. *

Highlight the solution, focusing on role of AI, also focus on why just analytics would not have been sufficient to solve the problem.

Solution Innovation & Implementation

17. Provide a high-level tech stack view of the solution. *

Describe your solution with a focus on technicalities like infrastructure, platforms, techniques, services, etc.

18. Describe the dataset used in terms of volume, data type, data sources, and complexity. *

19. Highlight the data related challenges faced while implementing the solution. *

Focus on challenges like data availability, accessibility, security, processing etc.

Impact & Scale

20. Highlight the achieved scale and overall impact of your solution. *

Highlight qualitative and quantitative impact achieved

21. Highlight the potential scale which can be achieved as per the current scenarios *

Timeline: 6 months to 24 months

22. How did the solution impact the key performance metrics *

- Cost Optimization
- Operational Efficiency
- User Experience
- Others? Please specify

23. Which of the following Responsible AI aspects did you accommodate in your solution implementation? *

- Unbiasedness/Fairness
- Data Privacy & Security
- Explainability
- Didn't consider
- Other

24. How do you secure end-to-end implementation of responsible AI solutions *

- Well-defined strategy with enterprise-wide frameworks, governance structures, and cutting-edge technology infrastructure for comprehensive risk assessment and mitigation
- Although no formal strategy, ad-hoc review mechanisms to monitor AI solutions in production for data drift, model drift, and staleness
- Reactive risk management strategies only
- None

25. Please mention any other information that you would like to highlight by uploading relevant documents to support your entry. *

Upload the details onto a publicly shared folder like, Google Drive, SharePoint etc. and paste the link in the text box below

Terms & Conditions

- Selected entities would be required to provide supporting documents, if asked, to the panel for further clarification.
- Applicants to provide consent that, if chosen, their solutions is likely to be featured through various platforms of Telangana AI Mission (T-AIM) or its partners. Any sensitive detail can be removed upon request and will not be shared further.
- The decision of the jury will be final and binding.

26. I agree to the Terms & Conditions *

Yes

No
